Out of Production List Book: Western Jet Airlines

£12.99

A detailed directory of the locations of thousands of western-built jet airliners that are no longer produced.

Whether an individual aircraft is still flying, stored, preserved, or if it remains only in parts, this book lists the last known location of each aircraft. For completeness, the full production list of each type is listed, even if the aircraft has been scrapped or written off.

Never before has a production list combined active, stored, preserved and wrecked aircraft in such detail. If you have gaps in your logs, this book is the ideal companion to help you track down the whereabouts of thousands of aircraft or their remains around the world.

Features:

- **Listings by Line Number for easy reference (Construction Number listed also)**
- **Aircraft listed by variant**
- **Full details of each aircraft's location, whether Active, Preserved, Stored, WFU, Remaining In Part, or Written Off**
- **Full previous registration cross reference for all aircraft.**
- **Tick boxes for marking off aircraft.**

Aircraft Covered:

- **Airbus A300B2 / B4 / 600**
- **Airbus A310-200 / 300**
